

S-PRESSO

Suzuki's "Way of Life!" is the heart of our brand - every Suzuki vehicle, motorcycle and outboard motor is built to create excitement so customers can enjoy everyday life.

Standard and optional equipment available may vary for individual markets. Please enquire at your dealers, as specifications and illustrations may refer to models not available in your region. **SUZUKI MOTOR CORPORATION** reserves the right to change, without notice, prices, colours, materials, equipment, specifications and models, and also to discontinue models.

All photographs in this leaflet were taken with relevant permission. Images of the vehicles without number plates on public roads are composite photos.

KICK START YOUR LIFE.

You can never miss its presence on the road. With a bold design and robust stance that radiate vibrant energy, the S-PRESSO brings alive every place in the city it ventures to. It's a car built for you to take on the world and make your mark. Every drive is a self-expression of the zesty spirit that defines you. Hop into the S-PRESSO, and kick start excitement in life.

DESIGNED TO BE BOLD.

The S-PRESSO's exterior design is a sight to behold. Its bold and athletic profile, combines with its tall and powerful stance ensuring it commands all the attention wherever it goes. The car's strong character lines and prominent exterior features such as the muscular front grille, striking front and rear bumpers, distinct headlamp and rear lamp design add to its robust appearance. Make a bold statement as you zip around corners and on lanes.

ENERGY WITHIN.

The moment you step inside the S-PRESSO, your eyes instantly fall on the unique centre console housing a trendy digital speedometer. Artistically crafted with bold and vibrant design elements, it's from where all the energy originates, spreading into the interior of the car. The central position of the meter cluster also gives you a new, heightened driving experience. Get in and experience the invigorating ambience of the S-PRESSO.

Meter cluster

The cutting-edge design gives it a futuristic look, while ensuring good visibility of the speedometer, allowing you to stay focused on the road ahead. The sharp and sophisticated LED display also gives you all-important details such as time, fuel economy, average speed, driving time and more.

Audio system

You will always be in a great mood as you drive the S-PRESSO. Thanks to its audio system that lets you enjoy your favourite tunes. The full dot LCD ensures clear visibility, and also comes with AM/FM radio, USB/AUX port and Bluetooth*1 connectivity.

*1 Bluetooth is a registered trademark of Bluetooth SIG, Inc.

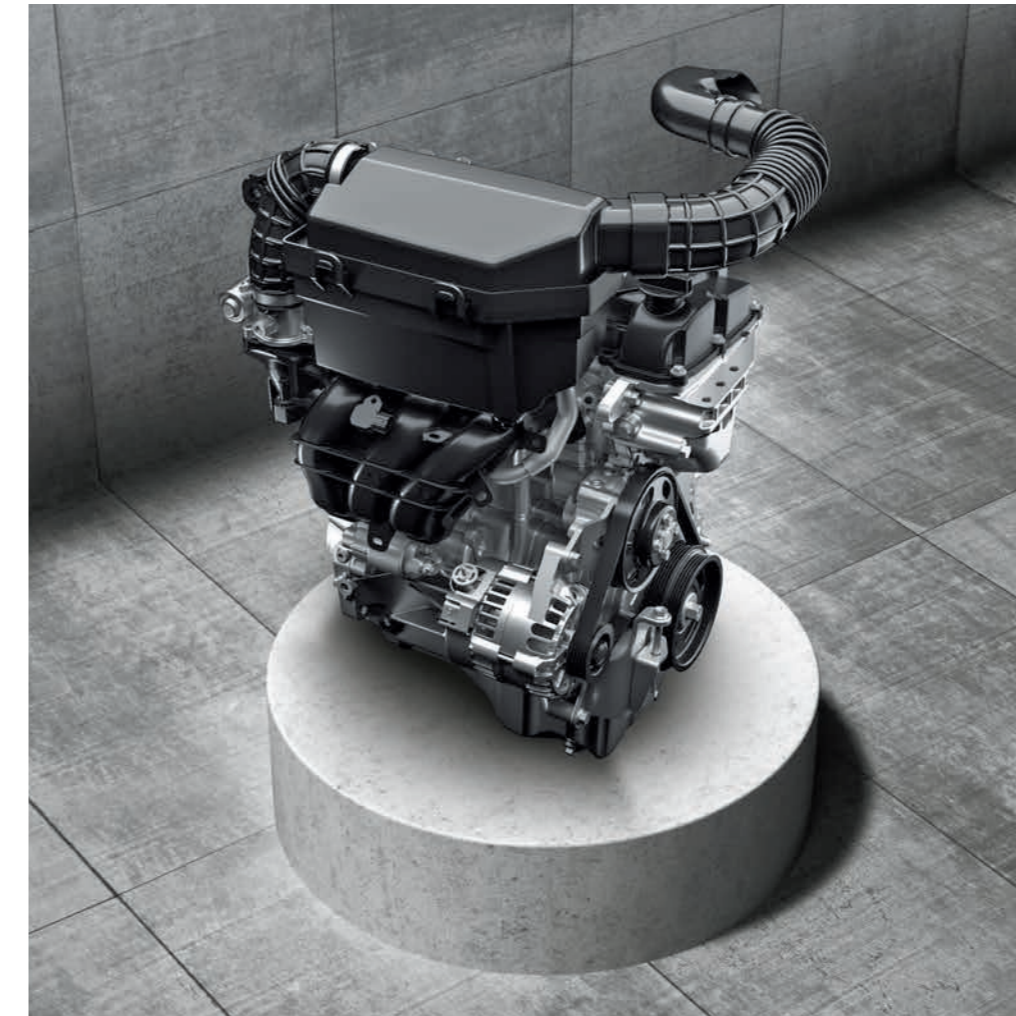

Manual air conditioner and 12V socket

While enjoying the high-energy drives of the S-PRESSO, experience the convenience it offers too. Its easy-to-operate manual air conditioner keeps you comfortable, while a 12V socket in the front console lets you charge your devices.

PERFORMANCE AND COMFORT, OPTIMISED.

The exceptional experience of the S-PRESSO is a combination of its driving performance and convenience. With a peppy engine and other innovative features you're in for an exciting drive. And because comfort matters, it has a spacious cabin and ample shoulder room. That's not all. A 239 litre luggage compartment provides enough space for multiple items, and if you require more space just fold the rear bench seats. Sit back, and gear up for an energetic drive that's equally relaxing.

1.0L petrol engine (K10B)

S-PRESSO's compact 1.0 litre engine is the perfect foil for the go-getter in you. After all, it delivers a peppy performance to go along with your active lifestyle. Plus, it delivers enhanced fuel efficiency, allowing you to go that extra mile.

Manual transmission

With a 5-speed manual transmission, the S-PRESSO makes driving on any road a pleasant experience. Its transmission offers an optimal gear ratio, and reduces friction for the engine and drivetrain, enabling it to obtain the best possible fuel consumption and power performance.

Cabin compartments

The presence of storage compartments let you stow small items and drinks, adding to the comfort of the spacious interiors.

HEARTECT

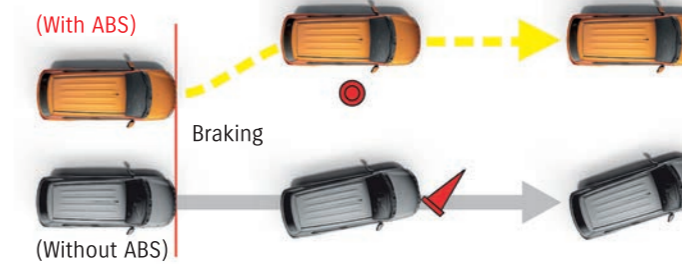

New-generation "HEARTECT" platform

Innovation lies at the heart of the S-PRESSO. It is built with Suzuki's new-generation platform – HEARTECT. Light and highly rigid, it lowers fuel consumption and vastly improves the fundamental vehicle performance in terms of running, turning and stopping. Its frame is characterised by smooth and continuous curves, which efficiently disperses impact energy in case of a collision.

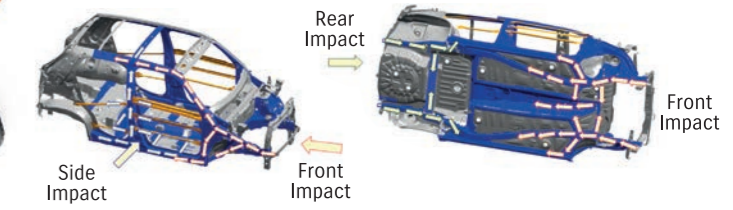

ROBUST PROTECTION.

The S-PRESSO lets nothing hinder you from reaching what you set out for. And it does this by keeping you protected on every road you take. With a host of exceptional safety features, the S-PRESSO takes care of you while you enjoy the drive.

ABS with EBD

In emergency braking or on slippery surfaces, the anti-lock brake system (ABS) keeps tyres from locking, and enhances the driver's ability to avoid obstacles through steering. Furthermore, the electronic brake-force distribution (EBD) optimally distributes front and rear braking force to help stably stop the vehicle.

Light, impact-absorbing TECT

(Total Effective Control Technology) body

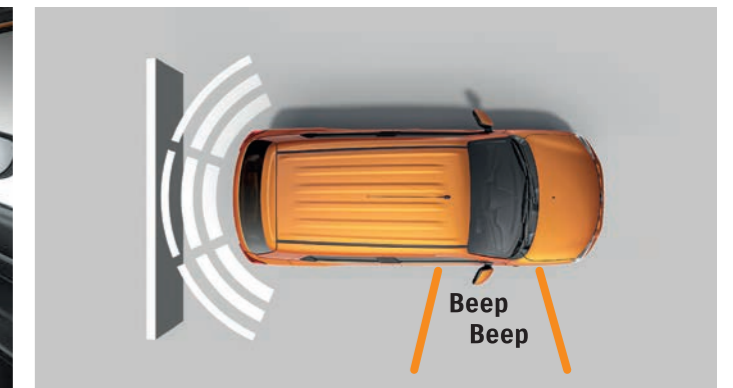

The body design of S-PRESSO centres on Suzuki's TECT concept, which helps protect the cabin in the event of a collision by efficiently absorbing and dispersing energy. It also widely employs high tensile steel to achieve both lightness and excellent safety performance.

Airbag image is for illustrative purposes only

Airbags

The S-PRESSO comes with front SRS airbags as standard for the safety of the driver and front-seat passenger in case of a frontal collision.

Rear parking assist system

S-PRESSO comes fitted with ultrasonic sensors in the rear bumper. This means you can get rid of your parking woes, because it helps detect obstacles while you park the car. Warning sounds keep you aware of the distance to the obstacle, making parking a simple task.
